LOCATION FORM

If you did not travel during the year, tick the appropriate box affirming that you were either in Canada or the U.S. for the whole year.

If you travelled outside your country of residence or if you lived in more than one country during the year, fill out the following chart. It is critical that you account for all of the days in the year. Start at January 1 and end with December 31. If the dates were different for various family members, indicate that.

Beginning Date	Ending Date	Where were you located in this period? (Country and if possible, state or province)	Person(s)	If you travelled outside your country of residence, note the purpose here (work/business or personal)?
